Single Garage Doors*

Not valid with any other discount.  
Expires 12/31/18

We're here to make sure your garage door runs smoothly all year long. Winter cold, snow, and ice all take a toll on your door and opener. A winter tune-up is a necessary first step to prevent any garage door winter "down time". Our technician will inspect, lubricate, and adjust if needed all moving parts.

Our tune-up process includes springs, rollers, hinges, cables, pulleys and drive mechanisms. We'll check all electrical components, and balance the door.
